

S01-L03 Environment setup

Databases

Run this query to verify you have MySQL installed:

```
mysql --version
```

You should see in Terminal:

```
mysql Ver 14.14 Distrib 5.7.12, for osx10.11 (x86_64) using EditLine wrapper
```

Run this query to verify you have Postgres installed:

```
postgres --version
```

You should see in Terminal: `postgres (PostgreSQL) 9.5.2`

Tools

On Mac, I recommend the following tools:

- For MySQL SequelPRO <http://sequelpro.com>
- For Postgres pgAdmin3 www.pgadmin.org/download/
 - or Postico <https://eggerapps.at/postico/>
