

**A quiz: What can I really do AFTER  
the course?**

# What can I really do AFTER the course?

Would you agree?	Yes / No
I know how to write beautiful code	
I know how to use variables in functions	
I know the difference between partial & concatenated indexes	
I know how to simulate not supported analytical functions	
I can create table partitioned by a list or range	
I can create a procedure and schedule it to run automatically every day	
I know how to use a cursor in a stored procedure	
<b>Number of "Yes" responses</b>	

```
SELECT SUM(CASE WHEN "Yes" THEN 1  
ELSE 0 END)  
/* FYI: valid SQL in MySQL :-) */
```
