Relevant coding standards

S07-L02 Relevant coding standards

- Always use `DELIMITER`, even if it's not necessary
- Split parameters on a new line
- Uppercase keywords, lowercase parameters, variables and table/column names
- Uppercase function and procedure names
- Comment a lot
- Add prefixes
  - Functions: `FC_`
  - Procedures: `INS_ / DEL_ / UPD_ / SEL_`
- When saving code to repository, add delimiter & `DELETE ... IF EXISTS`
